The **MiDOG All-in-One Test** is the best support for your vet. Our test provides your veterinarian with the information they need to quickly and effectively treat your pet. When your pet's health is on the line, you need a diagnostic test that goes above and beyond. **MiDOG's All-in-One Test isn't just another option - it's a breakthrough in veterinary diagnostics.**

What Makes MiDOG Better Than Other Tests?

	ALL-IN-ONE TEST	CULTURE TESTING	PCR TESTING
Detects All Bacterial and Fungal Infections	✓	✓ May miss infections that don't grow well in the lab	✓ Looks only for specific infections included in the test panel
Antibiotic Resistance Check	✓	✓ Resistance testing only available if the organism successfully grows	✗
For Chronic and Acute Infections	✓	✓ May take longer and may not detect slow-growing or difficult organisms	✓ Useful when a specific infection is suspected
Microbiome Insights Help Your Vet Accurately Diagnose Your Pet	✓	✗	✗
All-in-One Test: One and Done!	✓	✗	✗

Discuss with your veterinarian how the MiDOG All-In-One Test can help your pet today.

You love your pet. We do too. Let's get them the right diagnosis and treatment to help them get back to feeling their best, sooner.

Official Partner of:

Transforming Lives

As part of our commitment to innovation and scientific excellence, MiDOG has partnered with Hill's Pet Nutrition. This collaboration enhances our ability to explore the microbiome in deeper ways, ensuring our All-in-One Test continues to evolve with the most up-to-date insights in veterinary nutrition and diagnostics.
